

## German Schools in North America, Region 1: Regionally Coordinated School Curriculum: English (Grade 8)

With specific focus on the Curriculum of the German School, Washington, DC

Language learning takes place as a complex process in which the language activities of listening, speaking, reading, and writing as well as mastery of linguistic essentials play key roles so that students are able to function in the target foreign language. The following chart outlines the required skills that students should acquire in Grade 8 and that are prerequisites for Grade 9, since it is essential that students gain skills that allow them to work independently with texts and to deal with increasingly complex issues. This curriculum is based on the *Thüringer Ministerium für Bildung, Wissenschaft und Kultur: Lehrplan für den Erwerb der allgemeinen Hochschulreife* (Englisch, 2011). The German School, Washington, DC (DSW), provides English Language Arts instruction on a native-speaker level; therefore, the central competencies--"Listening," "Speaking," "Reading," and "Writing"--are practiced on a constant basis throughout the school year. The "Time" indicates an approximation. Most of these skills are connected and are thus practiced concurrently or during the same lesson.

The approved prompts--*Operatorenliste der Kultusministerkonferenz (KMK) für das Fach Englisch (Stand: Oktober 2012)*--are used in student assessment.

The German School Washington, DC, provides differentiated instruction for students in Grade 7, as outlined in Appendix I.

Accommodations and modifications for students in the *Realschulzweig* and for students earning a *Hauptschulabschluss* are outlined in Appendix II.

**Grade level:** 8

**Instructional Periods:** Five (5) hours / week

**Purpose:** Prerequisites for Grade 9

## APPENDIX I: Differentiated Instruction

English Language Learner (FS) and Native Speakers attend the same English class but receive differentiated instruction. Grading is based on LS and FS expectations respectively. Students use a literature anthology and a grammar textbook. There are five Standards of Learning: Students will (1) know and apply knowledge of the structure of English, including vocabulary, grammar, and usage; (2) know and understand the variety and range of communication forms and strategies in the English language; (3) know and apply the techniques of effective communication in writing and speaking; (4) do effective research; (5) read and understand major literary types, genres, and traditions of the English language. In Grade 8, students are not separated according to ability. English instruction is at the level for native speakers; new students are given extra guidance as needed. In Grade 8, students have “a grace period” (i.e., *Englisch als Fremdsprache*) of up to two calendar years from the date of entrance in the German School. All students, however, will receive grades. During the grace period, the student will be given ELL-appropriate exams and graded on criteria reflecting the fact that English is a foreign language for the student, and this will be so noted on the report card (*Englisch als Fremdsprache*). After this period, the student's achievements will be evaluated based on English as a native language (*Englisch als Landessprache*), so the student will be expected to be on the level of the class. Any student who clearly reaches the level of the class before the end of the grace period may be graded by native-language criteria. This is especially important for students who, for whatever reason, have a more extensive background in English.

## APPENDIX II: Realschulunterricht

In Grade 8, *Gymnasialschüler* and *Realschüler* attend the same English instruction. In these heterogeneous classes, instruction is internally differentiated by addressing the differing abilities and evaluating performance accordingly. English teachers recognize students' varying background knowledge, readiness, language, preferences in learning, and interests. To meet these needs, classes are taught as a blend of whole-class, group, and individual instruction. Assignments are appropriately structured to allow students to learn and succeed. Evaluation and grading is based on varying expectations and requirements. *Realschüler* are integrated into the mainstream instruction as much as possible to help *Realschüler* overcome learning weaknesses or difficulties and to encourage them to participate in classroom activities and discussions. Foremost, instruction builds on the strengths of *Realschüler* and to help them gain language competence and become critical and creative thinkers.

### Competencies:

- Summarize plots after reading selections aloud in class (reading, speaking, listening, writing).
- Discuss organizational structures such as titles, subtitles, head notes, acts, scenes, and chapters (reading, speaking, and listening).
- Practice definitions and terms in groups (speaking, listening, reading, and writing).
- Review information in visual form, such as diagrams and charts (reading).
- Create character lists, plot development charts (e.g., in novels and plays) as the reading proceeds (reading, writing).
- Engage in active comprehension during in-class readings (reading, listening, and speaking).
- Review basic literary terminology—plot, setting, character, and theme (reading, writing).
- Focus on the author's biographical information (reading, writing).
- Listen to recordings, DVDs, and videos to reinforce the texts (listening).
- Working with peers: *Realschüler* can work together with *Gymnasialschüler* (cooperative learning).
- Group projects allow students to examine texts of varying difficulty (listening, speaking).

### Assessment:

- Write two scheduled examinations (*Klassenarbeiten*) that are based on *Realschul* expectations.

- Write brief synopsis and interpretation of the action in a work.
- Compose short composition with a more limited scope.
- Learn vocabulary words and write words in meaningful sentences.
- Structure clear questions.
- Retell central scenes from a story or play.
- Keep a reading/writing log, dating and labeling assignments in their notebook.
- Monitor mistakes (e.g., personal list of misspelled words).
- Practicing correct English grammar and mechanics.
